## 2. AMENDMENTS TO THE TECHNICAL INDICATOR DESCRIPTIONS (TIDS)

### ADMINISTRATION

Indicator Title 2.2.1	Percentage of targets in the business partnership Programme of Action on track
<b>Definition</b>	<p>A Government Business partnership has been set up to partner on key focal areas that include energy, logistics, crime and corruption and employment.</p> <p>Progress in the implementation of action items arising from the engagements are then tracked, as responsible stakeholders are tasked with implementation.</p> <p>The percentage reported will reflect the progress on the implementation of the business partnership Programme of Action.</p> <p>The PMO Unit will produce a status report on the actions outlined in the Business Partnership Programme of Action. The measurement of actions that are on track will be determined based on the PMO report, which records the status of each action as either in progress or completed.</p> <p>On track refers to actions that are progressing in accordance with the Business Partnership Programme of Action and within the set timelines. This classification includes actions that are either 'in progress' or 'completed'. Actions classified as 'on track' are expected to achieve their intended targets within the targeted period, with no significant delays or risks impacting delivery.</p>

Indicator Title 2.5.1	Percentage of annual milestones of the JET Implementation Plan on track
<b>Definition</b>	<p>The Just Energy Transition (JET) Implementation Plan is supported under the Programme Management Office in The Presidency. Cabinet approved the implementation plan at the end of 2023. While not directly responsible for implementation, the PMO provides overall coordination and implementation support. It provides support to the JET Inter-Ministerial Committee. The team engages with implementers, escalates challenges, provides support to fast-track progress, and provides analyses of implementation challenges, and recommendations of measures to address them. For the purpose of ensuring clear measurability and effective implementation of the JET Implementation Plan, the JET PMU will develop annual milestones for the 2025 calendar year, based on the short-term objectives outlined in the JET Implementation Plan.</p> <p>Progress updates on the implementation of the milestones will be produced by the JET PMU Unit. The measurement of milestones that are on track will be determined based on the JET PMU report, which records the status of each milestone/intervention as either on track, completed with further work required or completed with no further work required.</p> <p>On track refers to milestones that are progressing in accordance with the Annual Milestone Plan for 2025 and within the set timelines. This classification includes milestones that are on track, those that have been completed but require further work, and those that have been completed with no further work required.</p> <p>The JET Implementation Plan is prepared from January to December 2025 and will be reported biannually on six months progress.</p>
<b>Source of Data</b>	<p>Source of Data Any of the following:</p> <ul style="list-style-type: none"> <li>• Minutes.</li> <li>• Agendas.</li> <li>• Briefing and/or advisory notes.</li> <li>• Presentations.</li> <li>• Annual JET Milestones Plan for 2025</li> </ul>
<b>Method of Calculation/Assessment</b>	<p>Method of Calculation/Assessment Calculation:</p> <p>Quarter 2: Number of milestones on track/completed with no further work required, and completed with further work required as at 30 June in the Annual JET milestones Plan for 2025/total number of milestones in the Annual JET milestones for 2025 *100</p> <p>Quarter 4: Number of milestones on track/completed with no further work required, and completed with further work required as at 31 December 2025 in the Annual JET milestones Plan for 2025/total number of milestones in the Annual JET milestones for 2025 *100</p>
<b>Means of Verification</b>	<p>Verify the:</p> <p>Assess the milestones in the Annual JET Milestones Plan for 2025 that are on track, completed but require further work, and completed with no further work required, as part of the implementation of the JET Implementation Plan.</p>

Indicator Title 2.6.1	Percentage implementation of planned Operation Vulindlela economic reforms on track
<p><b>Definition</b></p>	<p>Operation Vulindlela monitors progress, engages with reform implementers, escalates challenges, provides support to fast-track implementation, and provides analyses of implementation challenges and recommendations of measures to address them. In Phase 2, Operation Vulindlela will follow through on the existing reforms of Transforming the Electricity Sector, Creating a World-Class Logistics System, Investing in Water Infrastructure, and Reforming the Visa programme (4 areas) and expand to new reform areas to Create Dynamic and Integrated Cities, Harness Digital Public Infrastructure, and Strengthen Local Government (3 areas). These focus areas may be subject to change.</p> <p>These focus areas consist of 30 reform actions in the approved Operation Vulindlela phase 2 plan that will be measured during the year under review. The Vulindlela Report will be used to determine which actions are on track and which have been completed. This will also include the Cabinet-approved Freight Logistics Road Map in late 2023 to ensure coordinated action to resolve the challenge – In light of the crisis in the freight and logistics sector.</p> <p>On track refers to actions that are progressing in accordance with the Operation Vulindlela Phase 2 plan and within the set timelines. This classification includes actions that are on track, completed and completed with further work required. Actions classified as ‘on track’ are expected to achieve their intended targets within the targeted period, with no significant delays or risks impacting delivery.</p> <p>Operation Vulindlela produces a retrospective assessment of reform progress in the preceding quarters. As a result, the biannual progress report will reflect progress during the period under review, which may not align with the departmental reporting period. However, the assessment will focus on the most recent report produced.</p>
<p><b>Source of Data</b></p>	<p>Any of the following:</p> <ul style="list-style-type: none"> <li>• National Treasury Quarterly Tracking Reports to determine what is on track</li> <li>• PMO OV Quarterly Progress Reports</li> <li>• OV Project Plans</li> <li>• Media statements.</li> <li>• Public reports.</li> <li>• Minutes.</li> <li>• Briefing and/or advisory notes.</li> <li>• Presentations.</li> </ul>

<p><b>Indicator Responsibility</b></p>	<p>Branch Head: Office of the President</p>

Indicator Title 2.11.1	Percentage of State Capture Commission response actions on track
Definition	<p>While not responsible for direct implementation for all but a few actions, The Presidency will oversee and coordinate the implementation of the President's response to the recommendations of the State Capture Commission by stakeholders responsible for implementation.</p> <p>The Presidency will track progress in the implementation of the State Capture Commission response actions and report on progress.</p> <p>The percentage reflects the actions that are on track. As this is a cumulative measurement, the actions considered "on track" will also include those that have been completed, as well as those completed but requiring further action in accordance with their planned schedule.</p> <p>On track refers to actions that are progressing in accordance with the State Capture Commission response actions and within the set timelines.</p> <p>This classification includes actions that are either 'on track' or 'completed or completed but requiring further work. Actions classified as 'on track' are expected to achieve their intended targets within the targeted period, with no significant delays or risks impacting delivery.</p> <p>The progress report on the implementation of actions in the President's response to the recommendations of the State Capture Commission is not aligned with the departmental reporting period. This misalignment is mainly due to the lengthy coordination process required to source progress information and present the report to various structures prior to its finalisation. As a result, the reporting timelines may not correspond with the departmental reporting cycle. However, the assessment will focus on the most recent report produced, which reflects progress to date.</p>
Source of Data	<p>Any of the following:</p> <ul style="list-style-type: none"> <li>• President's response to the recommendations of the State Capture Commission.</li> <li>• Reports from relevant stakeholders.</li> <li>• Briefings and/or advisory notes.</li> </ul> <p>NB. Certain reports, briefing notes and recommendations are classified/confidential, arrangement would be made for viewing.</p>
Method of Calculation/Assessment	<p>Calculation:</p> <p>Number of due State Capture Commission response actions that are on track, completed and complete but requiring further work/divided by the total number of State Capture Commission response actions, multiplied by 100</p>
Means of Verification	<p>Verify the:</p> <ul style="list-style-type: none"> <li>• Verify the State Capture Commission response actions on track, completed and complete but requiring further action using data sources described above</li> </ul>
Assumptions	Not applicable.
Disaggregation of Beneficiaries (where applicable)	Not applicable.

**PROGRAMME 3: POLICY AND RESEARCH SERVICES**

<b>Indicator Title 1.9.1</b>		<b>Percentage of SEIAS reports received from Departments analysed and feedback provided to the respective departments</b>
<b>Definition</b>	Socio-economic impact assessments (SEIAS) aim to: <ul style="list-style-type: none"> <li>Minimise unintended consequences from policy initiatives, regulations, and legislation, including unnecessary costs from implementation and compliance, as well as from unanticipated outcomes provided to the respective departments.</li> <li>Anticipate implementation risks and encourage measures to mitigate them.</li> </ul> The Presidency will produce assessment reports that provide information on the analysis and critical due diligence done on the socio-economic impact assessment (SEIA) reports received from departments. Feedback will then be provided. Due to the complexity of the assessment and dependencies on other departments such as DPME, reports received within 10 working days before the end of a quarter will be excluded from that quarter's assessment. These reports will instead be included in the assessment for the following quarter.	
<b>Source of Data</b>	<ul style="list-style-type: none"> <li>Department SEIAS reports received from government departments.</li> <li>Analysis and critical due diligence reports generated on the SEIAS reports received from government departments, reporting on assessments they have conducted.</li> <li>Feedback reports provided to the respective departments.</li> </ul>	
<b>Method of Calculation/Assessment</b>	Calculation: Number of Department reports analysed and feedback provided in the reporting quarter, divided by the total number of department reports received in the reporting quarter, multiplied by 100 to be expressed as a percentage provided to the respective departments. NB: the assessment excludes the reports received with 10 working days before the end of the quarter. Reports received from departments within the 10 working days preceding the end of the quarter will be counted in the next quarter.	
<b>Means of Verification</b>	Verify that: <ul style="list-style-type: none"> <li>Analysis was conducted on SEIAS reports received from departments, via email, system, and that the feedback report was provided to the respective departments via email, system or hand delivery (with acknowledgement receipt)</li> </ul>	
<b>Assumptions</b>	Departments submit their reports on socio-economic impact assessments they have conducted.	
<b>Disaggregation of Beneficiaries (where applicable)</b>	Not applicable	
<b>Spatial Transformation (where applicable)</b>	Not applicable
